

Further education and skills: March 2025 underlying data

Metadata specification

Description

This document describes the data included in the 'Further education and skills: March 2025' National Statistics release's underlying data files. This data is released under the terms of the [Open Government License](#). It is provided to allow users to interrogate the data themselves.

The underlying data files cover England and include Further Education and Skills learner participation/achievements and aim enrolment/achievement figures. Some tables also include further breakdowns; by provision type (e.g. education and training, tailored learning, or apprenticeships), by learner characteristics (e.g. age, sex, ethnicity group) or subject characteristics (e.g. sector subject area, level, learning aim).

The [Further education and skills statistics: methodology](#) document published alongside the main release should be referenced alongside this data. It provides information on the data sources, their coverage and quality as well as explaining methodology used in producing the data.

Annex B – How to use excel to connect to larger underlying files for your analysis

The underlying data consists of the following files:

- Underlying data - FE and skills (FES) learner participation
- Underlying data - FE and skills (FES) learner participation, under 19s (in development)
- Underlying data - FE and skills (FES) aims enrolments
- Underlying data - FE and skills (FES) aims enrolments 2023/24 re-cast
- Underlying data - FE and skills (FES) aims achievements
- Underlying data - FE and skills (FES) aims achievements 2023/24 re-cast
- Underlying data - FE and skills (FES) demographics
- Underlying data – free courses for jobs starts and achievements on individual courses
- Underlying data – advanced learner loans applications - top 10 qualifications
- Education and Training Achievement Rates - Transparency Redactions
- FE and skills (FES) learner achievements (excluding Community Learning and non-regulated Multiply aims)
- FE and skills (FES) learner achievements (excluding Community Learning and non-regulated Multiply aims) by local authority
- Free Courses for Jobs course list starts by provider and academic year
- FE and skills (FES) provider participation by provision type and learner characteristic

Annex B – quick guide to using the underlying files on EES (EXPLORE EDUCATION STATISTICS)

Navigate to the ‘Explore data and files’ section of this release to find several useful underlying and supporting files for the data on the publication.

The underlying data files and meta data information can be found under the ‘All supporting files’ sections. Once expanded you will see a list of all the files available for you to download and use.

Due to the size of some of these files follow these steps to download and access the data.

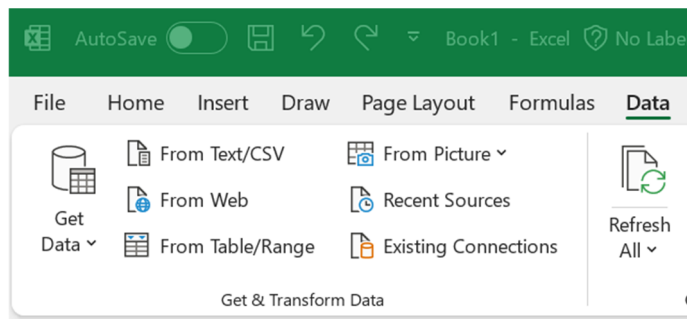

Click the data file link you wish to view; this will automatically start a download of the file through your internet browser. Once this step is complete, click the file, or open your downloads folder on your file explorer.

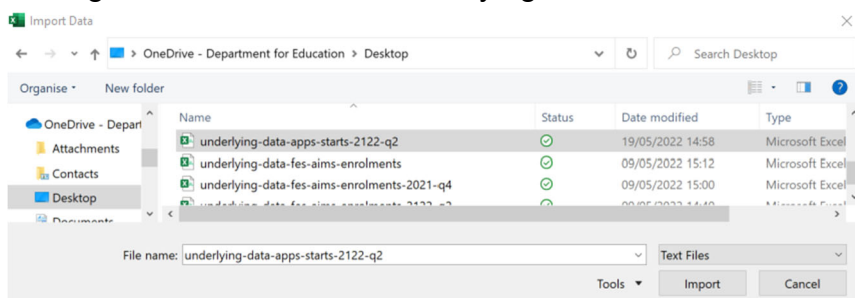

The data files will download as CSV files which you can create a connection to and build a pivot table for your analysis.

Save the file from the downloads folder into a suitable location of your choice.

In excel on the ‘Data’ tab click the ‘From Text/CSV’ button in the top ribbon of excel.

Navigate to the folder the underlying file is saved to and select the file to ‘import’

Select the option to 'Load to'
