Metadata specification

Description

This document describes the data included in the 'Further education and skills: March 2024' National Statistics release's underlying data files. This data is released under the terms of the [Open Government License](#). It is provided to allow users to interrogate the data themselves.

The underlying data files cover England and include Further Education and Skills learner participation/achievements and aim enrolment/achievement figures. Some tables also include further breakdowns; by provision type (e.g. education and training, community learning, or apprenticeships), by learner characteristics (e.g. age, sex, ethnicity group) or subject characteristics (e.g. sector subject area, level, learning aim).

The [Further education and skills statistics: methodology](#) document published alongside the main release should be referenced alongside this data. It provides information on the data sources, their coverage and quality as well as explaining methodology used in producing the data.
